“

Education is one of the means to transmit the light of life and spread the radiance of it in the ambience in which we live.

”

■ A school plays a crucial role in shaping a child's future. Not only does this include the provision of education and ensuring learning, but moulding the character, morals, and value system of the child as well. A school provides the foundation needed to view the world as a limitless space providing innumerable opportunities to shine. We at GPS, focus on contextual learning based on a constructivist theory of teaching and learning to help children become self-reliant, problem solver and challenge seekers, learning by doing and inquiry-based learning activities. We are constantly challenging our students to embrace self discipline in rapidly changing post corona circumstances. Our teachers help students to test their ideas, draw conclusions and inferences in a collaborative learning environment which transforms the students to become active participants in the learning process. We are focused on a well-rounded and effective educational practice needed for the capacity-building of our children. It will develop skills that will drive their employability, productivity, health, and well-being in the decades to come, and ensure the overall progress.

Mental Wellness - A bliss!

Ms. Shikha Garg

Ms. Ria Sofat

"Mental health is just as important as physical health."

An emotionally fit and stable person always feels vibrant and truly alive and can easily manage emotionally difficult situations. To be emotionally strong, one has to be physically fit too.

Mental wellness is the vaccination for the uncertainty of life. We as teachers attribute the same and offer a mental health period where we allow our students to practice emotional hygiene without stigma which builds their confidence and makes them a strong cogent human being.

Having mental illnesses is not just about feeling sad or moody all the time. It's a serious mental disorder, a state of mind where the mental pattern is not under the control and where emotions are uncontrollable. So, it's indispensable to create awareness about mental health in our surroundings. Let's share support for mental wellness and show that the sufferers are not alone. One in three of us will suffer from this at some point in our lives and it's just love and support which can curb us from this curse.

Say No to Drugs

*Say No To Drugs in a world where darkness resides,
Where deamons lurk And souls are tried,
There's a plea I humbly ride,
A chant that echoes far and wide.
Say no to drugs with all your might,
They blind your senses, steal your sight
They lace your dreams with endless fright,
And strip your World of vibrant light.
See the beauty in the clear mind's glow,
Feel the wonders that true life bestows,
Embrace the truth that mustn't be slowed,
Let your spirit rise and freely flow.*

*For in the depth of addiction's snare,
Lies shattered dreams beyond repair,
And a battle fought with little repair.
Say no to drugs let the message be spread,
From the valleys deep to the mountains head,
Together we'll stand out fears
And great the dawn of a brighter thread.
Choose hope, love, a life so grand,
Where strength and courage firmly stand,
Unveil your potential, take a firm command,
And bid a farewell to this destructive brand.
Say no to drugs, let your voice resound,
In every corner, every city, every town,
For a drug free world let us be bound,
Where healing and joy eternally surround.*

If I were a bird

*If I were a bird, I'd fly up high,
in the deep sky, feel wind around me,
have joy surround me,
with my wings of creation,
and my new salutation.
How I was free, yet captivated
for this freedom, my whole life I waited.*

*Sun be my father, all bright and shine,
wind be my mother, so cool and divine.
Vast as sea, the tranquility,
in life as a bird, I'd never be unheard.*
